We are looking for passionate Software Developers (m/f) for the internship at Intorel

Here in Intorel we are devoted to guide college students during their internship. For the last 18 years we are constantly welcoming young people that are finishing or already have accomplishing their studies.

Our passion is telecom and we are happy to share it with you. We will help you find the most interesting projects and we will always have time for all your questions. We will make you immediately part of the team and you will be able to see your knowledge applied and used by all our customers around the world.

If you just got your master's diploma and you just want to jumpstart your career, we can offer you dynamic and inspirational environment. We will be with you every day and you will be in contact with our clients. Like this, you can see your solution directly employed in the real life!

You will be involved in:

- Development of the software modules that will be a part of the Visionic platform
- Daily activities of our company and active contribution to our team
- Gathering requirements from the clients and the members of our team
- Being in touch with the latest software technologies.
- Implementation and testing of the developed modules

Contact us if you have a Master's in engineering, software or ICT and you have knowledge of any of these technologies:

- HTML5, CSS, JavaScript and jQuery
- Microsoft .NET technology, Web Services, client-server systems
- C#, C++
- MySQL or any other database technologies
- XML, REST, SOAP, SNMP or TCP/IP communication protocols

We will make sure that you:
- Are working in a friendly, dynamic and inspiring environment
- Have access to all the latest technologies, tools and frameworks
- Participating with us on conferences, trade shows, events and internal knowledge sharing

- Have constant monitoring and assistance that will help you improve your personal development and performance

- Are ready to jumpstart your career path thanks to the experiences that you are going to achieve in our company
