ANNUAL SOCIAL IMPACT REPORT

BODOSSAKI FOUNDATION at a glance

Bodossaki Foundation is a public benefit organisation founded in 1972 with the aim of continuing the contribution of its founder, **Prodromos-Bodossakis Athanassiades**, to the Greek society.

Its vision is a society of equal opportunities and prospects for all

To promote its vision, the Foundation funds, plans and implements, in full alignment with the principles of transparency, accountability and integrity, actions and programmes of relevance to its four strategic action pillars: promoting education, enhancing healthcare, protecting the environment and empowering the Civil Society. From its establishment to this day, it has made available over €450 million for promoting its purposes.

At the same time, Bodossaki Foundation today acts as a catalyst for fostering a broader culture of contribution in the Greek society, managing resources on behalf of third parties –Legators, international organisations, and other major donors– wishing to fund programmes with a strong social impact that address critical needs in education, healthcare, the protection of the environment and the empowerment of the Civil Society.
