BODOSSAKI FOUNDATION

Our Vision

A SOCIETY
OF EQUAL OPPORTUNITIES, WITH POSSIBILITIES &
PROSPECTS FOR ALL

Bodossaki Foundation is a public benefit organisation established in 1972 with the aim of continuing the contribution of its founder Prodromos Bodossakis Athanasiadis to Greek society.

In order to achieve its vision, Bodossaki Foundation, with transparency, accountability and credibility, funds, designs and implements projects and programmes related to its four strategic pillars: promoting education, improving health care, protecting the environment and empowering Civil Society. Since its creation, it has made available more than €460 million to further its aims.

At the same time, Bodossaki Foundation also acts as a catalyst in fostering a broader culture of social contribution in Greece by managing resources on behalf of third parties—from international institutions, other foundations, corporations, and individuals—who wish to fund programmes with a significant social impact on Greek society.
